NOTIFICATION

Sub: - Implementation of inspection framework for verification on status of mandate condition and consent in Online Consent Management & Monitoring System of Board.

As a part of ease of doing business, compliance inspection protocol is developed online in krocmmms.nic.in for verification on status of mandate conditions of consent issued. The list of industries for performing compliance inspection will be allocated to the respective officer based on the protocol developed by Board. The inspection report can be viewed and downloaded by the concerned industry also. Follow up action based on the inspection report will be taken by the Board through the online e-correspondence file of the industry. This new module was launched w.e.f. 15/10/2018.
